FOR IMMEDIATE RELEASE
August 24, 2006

REGION4 ANNOUNCES THE INDUSTRY'S SMALLEST ONE DRIVE DVD/CD RECORDER/PRINTER

Manufactured by Elesys and distributed in Australia and New Zealand by Region4, The Duet™ 400 uses RadialPrint™ technology to simplify Disc recording and labelling in professional and personal applications.

The Duet™ 400 makes it quick and easy to record, duplicate and print on demand. It is the smallest complete disc-publishing product on the market today. The DUET™ 400 is based on ingenious and patented technology that allows the printer mechanism to be positioned on top of the drive, creating a small footprint device, minimizing space requirements and producing functional efficiency.

Utilising Elesys Radialprint™ technology and Lexmark inkjet technology, the Duet™ 400 enables users to record content and print professional-quality full-colour text and images directly onto the surface of an inkjet-printable DVD or CD. **The Duet 400 ensures integrity between content and label by burning data to the disc and labeling it while the disc is still spinning in the drive, eliminating the need for multiple insertions.**

“Region4 is proud to announce our new partnership with Elesys and we are excited about adding the Duet 400 to our current range of CD/DVD production systems”, said Callum Hingston,

~ MORE ~

Region4 Managing Director. "We are committed to bringing innovative products to the growing market of DVD/CD users. Whether labelling for professional or personal reasons, for backup or marketing applications, the Duet 400 simplifies the media recording and labeling process".

Pricing

The Duet 400 is now shipping in Australia and New Zealand from Region4 authorised resellers with a RRP of \$1599 inc GST in Australia, and \$1777 ex GST in New Zealand. This pricing includes a top-of-the-line external DVD/CD combo drive, a built-in printer, drivers, labeling and recording software, an inkjet cartridge, and a USB cable – all that is necessary to plug, record and print.

About Elesys

Founded in 1990 in Sunnyvale, California, Elesys is the creator of RadialPrint™ technology and designs and manufactures recording and printing devices for DVD/CD markets. As the architect of Radialprint™ technology, Elesys continues to blaze strong inroads in developing the next generation of Radialprint™ products and is working with key strategic partners to accelerate the effort.

About Region4

Region4 is the leading distributor in Australia and New Zealand for CD-R and DVD printing, duplicating and publishing solutions. Since 1997, Region4 has developed strong relationships with the world's largest and most innovative manufacturers of disc printing, duplicating and publishing systems, providing the most comprehensive range of equipment to the market, via educated and knowledgeable channel partners.
